### Notes:

- This report is valid for the period of time stated on the top right of the first page.
- Unless otherwise advised, product details will be publicly available 28 days after being submitted for testing.
- All samples will be disposed of within 7 days of report being issued.
- The scan rate is an indication of how the barcode performed on one scanner. As various scanners decode barcodes in different ways, any shortcoming of a barcode may result in a varied level of performance across different scanners.
- The correct allocation of the number is the responsibility of the owner.
- Rejection of products should not necessarily be based only on an out of specification result.
- It is the responsibility of the member company to ensure the correct use of the EAN.UCC Company Prefix.
